

# WALL MOUNT INTERCONNECT CENTER (SWIC3)

The Wall Mount Interconnect Center (SWIC3) is a cost-effective fiber enclosure designed to manage and connect up to 96 fibers. The low-profile, compact design makes it ideal for telecommunications closets or other installation areas where wall space is a premium. The adapter mounting method is standardized via the utilization of the same snap-in flat Quick-Pack™ adapter plates as used in our family of Rack Mount Interconnect Centers (RIC3).
